AQUALINE BATH TUB

fully height adjustable

Kingkraft
KINGKRAFT

The Aqualine 1700 is a height adjustable bath ideal for persons who need assistance whilst bathing. Carers are able to set the working height of the bath at a comfortable level for them.

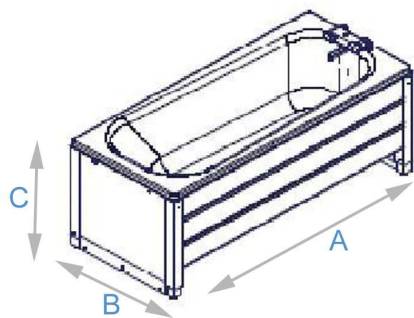

Access into the bath is by means of hoisting. The bath can be used in conjunction with both mobile and ceiling track hoist systems.

Height adjustment is from 65-95cm by means of a hand control unit with an extending spiral cord. The bath is provided with a thermostatic mixer tap and hand shower. There is also the option of an attached changing and showering table top for added versatility. A bed guard can also be mounted for extra safety.

The bath fits into the same space as a conventional bath. (Other sizes are available to order)

Benefits to the user are:

- Easy access into the bath
- Variable height for assisted bathing
- Integral shower
- Changer top eliminates the need for a separate unit

Model No.	A Length	B Width	C Height approx	Internal length	Internal width
1600	1600	700	650-950	1170.5	340-400
